Finally a way to drive gears using servos! Our 48 pitch gears are designed to attach directly to the output spline of a servo. These gears work great in combination with our hub mounted gears to drive axles or build pan and tilt mechanisms.

20° Pressure Angle

Spline = Hitec Standard Spline  
Width = 1/8" (.125")  
O.D. = Outside Diameter  
P.D. = Pitch Diameter

(Patents Pending)
